Mr. Canady's professional career focus is the complete development of facilities from inception through construction to operation.

His experience includes over 18 years working as project manager, construction manager, and architect managing all facets of the design and construction process. Mr. Canady's experience includes overseeing many types of project procurements to include civilian, state, federal, and military. Sizes range from \$100,000 Tenant Finish to multi-million dollar military construction (MILCON). He is familiar with Federal Acquisition Regulations (FAR) and government contracting procedures.

Mr. Canady has vast experience working in the capacity of government Contracting Officer's Representative (COR) on over 50 projects. He has also owned and operated a successful small business, est. in 2008, where he has completed several projects to the complete satisfaction of his customers and building department officials. Mr. Canady also serves his country as a Reserve Civil Engineering Officer, member of the CO Air National Guard. He has obtained the rank of Captain.
